SEQUOIA HIGH  
SCHOOL AND  
VISALIA ADULT  
SCHOOL -  
WESTERN  
ASSOCIATION OF  
SCHOOLS AND  
COLLEGES (WASC)  
REPORT

Principal, Anna Gomez, presented Sequoia’s WASC document to the board. She said that Sequoia staff began putting the study together last spring. Ms. Gomez thanked Mr. Twiford, Mrs. Beacom, Mrs. Jones and Mrs. Christopher for their assistance in putting the report together. She especially thanked Linda Thompton, assistant principal at Sequoia, for her skills in editing the document. She added that she is very proud of the things that Sequoia has accomplished during the past three years.

Adult School Principal, Caroline Casida, introduced her Assistant Principal, Kate Garland, and Mary Kay Akins, WASC coordinator and instructor at the school. She thanked the two for their work on the accreditation report. Mrs. Garland and Mrs. Akins provided the board with a copy of the report. Mrs. Casida said that very few adult schools choose to go through the WASC process and that even fewer receive a six-year accreditation, which the Adult School has done. Tonight’s three-year midterm report is an evaluation of where the school is relative to the initial action plan that was designed and the recommendations that were made by the visiting team three years ago. Mrs. Casida said that tonight’s report indicates that close to three-fourth’s of the recommendations the team made three years ago for their six-year plan have been completed. Included in the handout to the board was the exit interview meeting date. Mrs. Casida also invited the board members to the dinner with the WASC team at Cafe 225 on March 5 at 7 p.m. Members interested in attending the dinner were asked to RSVP to the Adult School. Mr. Carrizosa said that he would provide the board with a schedule of both the introductory meetings and the exit meetings with WASC for all three comprehensive high schools, Sequoia and Adult School.

AGREEMENT WITH  
FAMILY HEALTH  
CARE NETWORK  
AND VISALIA  
UNIFIED SCHOOL  
DISTRICT

Carlyn Lambert reported that as staff is looking at the Goshen and Houston School Scholastic Audit, there is a recommendation that the district have a health care facility available at both of the sites. On a side note, Mrs. Lambert also commended Lucinda Mejdell-Awbrey and her husband, John Awbrey, for encouraging the Mt. Whitney DECA students to complete their CD with the assistance of TUPE funds. Mrs. Awbrey began the discussion of Enclosure No. 11. She said that the enclosure was an agreement with Family Health Care Network and VUSD for primary medical health care services at Goshen Elementary for students and their families for approximately 20 hours a week. The district will provide the space in the new Goshen Healthy Start Building. Family Health Care Network is also proposing to place one of their community outreach workers at Houston Elementary School to work alongside the school nurse, psychologist and community aides

to help connect families to a number of community services. Mrs. Awbrey said that having health services available at schools has proven to help student attendance and student well-being indicators. She then introduced Harry Foster, CEO of Family Health Care Network, Ruben Chavez, director of community services of Family Health Care Network, Principal of Goshen Elementary, Marty Frolli, and Principal of Houston Elementary, Pam Merkel. Mr. Chavez provided information on the Family Health Care Network, which was established in 1976. He also provided a handout which included information on the FHCN. Board members expressed their appreciation and support for the organization. Mr. Foster from FHCN, also addressed the board to express his delight in working with the district “to address the needs of our students and their families.” Mr. Frolli introduced Irma Montion, Goshen Elementary School’s new Healthy Start Coordinator. He conveyed his support of the agreement currently under discussion. Mrs. Merkel also expressed her support for this proposed agreement with FHCN. The agreement will be presented for board action at the March 12, 2002 board meeting.

COMMUNITY  
INPUT FOR  
ANNUAL  
DISTRICT-WIDE  
GOAL SETTING

Mr. Carrizosa reintroduced Vicki Stasch, who has been serving as a district consultant through the community input process for district-wide goal setting over the past seven weeks (Encl. No. 12). Ms. Stasch thanked the superintendent and board for the opportunity to facilitate the 12 community forums and for their presence at the meetings. She also thanked staff, translators and child care people who assisted at the forums. Mrs. Stasch said that there were 448 people who attended the forums. She then reviewed the data she had compiled from the community input. She had developed a list of 13 top priorities, which she shared with the board and audience. Board members expressed their appreciation for Ms. Stasch’s work in disseminating the data. Ms. Stasch said that participants at the forums are interested in receiving a copy of the draft goals that will be developed by the board. Board members also extended their appreciation to the community for their participation in the forums. Mr. Stephenson thanked Mr. Carrizosa for his efforts with regard to the forums and for the tone he had set at the forums which encouraged people’s input. Mr. Carrizosa said that the raw data presented tonight will be reviewed by Cabinet tomorrow morning and by principals at tomorrow afternoon’s principals meeting. Discussion will take place and goals and objectives will be developed. Staff hopes to have a first draft of the goal statements available by the March 12 board meeting. The goals and objectives will be presented to the board for its approval and adoption at the March 26 board meeting.

HOUSTON  
SCHOLASTIC  
AUDIT  
RECOMMEN-  
DATION  
Motion No. 140

Enclosure No. 13 was presented as a follow-up to the February 12, 2002 Board Meeting discussion on the Houston Scholastic Audit Recommendation. Mr. Carrizosa said that tonight’s information includes very few changes from the enclosure presented February 12. Discussion at the February meeting focused on the recommendation to return Highland School to an independent K-6 school. This in turn would provide a balance in the enrollment at Highland and Houston. This recommendation also allows the district to consider the annual calendar for the two schools and the opportunity to return them to a single-track traditional calendar. Mr. Carrizosa then reviewed the key points of the rationale for this recommendation. Mr. Carrizosa stressed that making this change will not be a determining factor in improving student performance at the schools. He said that it is an important factor, however. He added that there are a number of things being considered at Houston and Goshen Elementary Schools with regard to the scholastic audits and the intervention agreements to improve student performance. Mr. Carrizosa said that funding for this proposed recommendation (Encl. No. 13) would be a top priority. Mr. Carrizosa said that in making this change, acting on the Scholastic Audit recommendation would trigger the need for the district to study the feasibility of this change district-wide. Following further discussion of this recommendation, on a motion by Jones and second by Lane, the board approved the following: conversion of Houston and Highland Schools to independent K-6 schools; conversion of Houston and Highland Schools to single-track (traditional) school calendar; and authorized the administration to study the feasibility of converting all multi-track year-round elementary schools to a single-track calendar. Ayes: all. Motion carried.
