

SELECTION AND EVALUATION OF INSTRUCTIONAL MATERIALS

The Governing Board desires that district instructional materials, as a whole, present a broad spectrum of knowledge and viewpoints, reflect society's diversity, and enhance the use of multiple teaching strategies and technologies. The Board shall adopt instructional materials based on a determination that such materials are an effective learning resource to help students achieve grade-level competency and meet criteria specified in law. Textbooks, technology-based materials, and other educational materials shall be aligned with state and district content standards and the district's curriculum in order to ensure that they effectively support the district's adopted courses of study.

(cf. 6163.1 - Library Media Centers)

(cf. 9000 - Role of the Board)

The Superintendent or designee shall establish a process by which instructional materials shall be reviewed for recommendation to the Board.

This process shall involve teachers in a substantial manner and shall also encourage the participation of parents/guardians and community members. (Education Code 60002)

All recommended instructional materials shall be available for public inspection at the district office.

(cf. 5020 - Parent Rights and Responsibilities)

Individuals who participate in the selection or evaluation of instructional materials shall not have a conflict of interest, as defined in administrative regulation, in the materials being reviewed.

(cf. 9270 - Conflict of Interest)

Complaints concerning instructional materials shall be handled in accordance with law, Board policy, and administrative regulation.

(cf. 1312.2 - Complaints Concerning Instructional Materials)

(cf. 1312.4 - Williams Uniform Complaint Procedures)

SELECTION AND EVALUATION OF INSTRUCTIONAL MATERIALS (continued)

The Board's priority in the selection of instructional materials is to ensure that all students in grades K-12 are provided with instructional materials that are aligned to state content standards in the core curriculum areas of reading/language arts, mathematics, science, and history-social science. Students in grades K-8 shall be provided with instructional materials adopted by the State Board of Education.

The district may pilot instructional materials, using a representative sample of classrooms for a specified period of time during a school year, in order to determine how well the materials support the district's curricular goals and academic standards. Feedback from teachers piloting the materials shall be made available to the Board before the materials are adopted.

Public Hearing on Sufficiency of Textbooks or Instructional Materials

The Board shall annually conduct one or more public hearings on the sufficiency of the district's textbooks or instructional materials. (Education Code 60119; 5 CCR 9531)

The hearing shall be held on or before the end of the eighth week from the first day students attend school for that year. (Education Code 60119)

The Board encourages participation by parents/guardians, teachers, interested community members, and bargaining unit leaders at the hearing. Ten days prior to the hearing and in three public places within the district, the Superintendent or designee shall post a notice containing the time, place, and purpose of the hearing. The hearing shall not take place during or immediately following school hours. (Education Code 60119)

(cf. 9322 - Agenda/Meeting Materials)

At the hearing(s), the Board shall determine, through a resolution, whether each student in each school, including each English learner, has sufficient textbooks or instructional materials in each of the following subjects which are aligned to the state content standards adopted pursuant to Education Code 60605 and consistent with the content and cycles of the state's curriculum frameworks: (Education Code 60119)

1. Mathematics
2. Science
3. History-social science
4. English language arts, including the English language development component of an adopted program

SELECTION AND EVALUATION OF INSTRUCTIONAL MATERIALS (continued)

The Board shall also make a written determination as to whether each student enrolled in a foreign language or health course has sufficient textbooks or instructional materials that are consistent with the content and cycles of the state curriculum frameworks. The Board shall determine the availability of science laboratory equipment, as applicable to science laboratory courses offered in grades 9-12. (Education Code 60119)

In making these determinations, the Board shall consider whether each student has sufficient textbooks and/or instructional materials to use in class and to take home. However, this does not require that each student have two sets of materials. The materials may be in a digital format as long as each student, at a minimum, has and can access the same materials in the class and to take home as all other students in the same class or course in the district and has the ability to use and access them at home. However, the materials shall not be considered sufficient if they are photocopied sheets from only a portion of a textbook or instructional materials copied to address a shortage. (Education Code 60119)

For the 2008-09 through 2012-13 fiscal years, the Board shall also make a determination that all students within the district who are enrolled in the same course have "identical" standards-aligned textbooks or instructional materials from the same adoption cycle, as defined in Education Code 1240.3, 60119, and 60422. (Education Code 1240.3, 42605)

If the Board determines that there are insufficient textbooks and/or instructional materials, the Board shall provide information to classroom teachers and to the public setting forth, for each school in which an insufficiency exists, the percentage of students who lack sufficient standards-aligned textbooks or instructional materials in each subject area and the reasons that each student does not have sufficient textbooks and/or instructional materials. The Board shall take any action, except an action that would require reimbursement by the Commission of State Mandates, to ensure that each student has sufficient materials within two months of the beginning of the school year in which the determination is made.
